KUROPATKIN'S ARMY CRUSHED.

Mukden is in the Hands of the Japanese Troops. Two Hundred Thousand Russian Troops Surrounded. Greatest Military Disaster in History.

Bulletin Special.

London, March 10.—Mukden has fallen and immense quantities of arms, ammunition, provisions, many guns and thousands of prisoners are in the hands of the victorious Japanese.

Bulletin Special.

London, March 10th.—At noon yesterday Mukden was still occupied by the Russians. Fu Pass 12 miles eastward on Hun river and one of the vital points for Kuropatkin in the retreat of his eastern wing was bombarded by Japanese at 12:30 a.m., the Russian artillery replying vigorously. The Hurricane was in progress during the entire day and no reports came from the Commander in Chief.

Later, it has been given out from St. Petersburg that dispatches from Mukden indicate that the Japanese forces are well north of Mukden and that Kuropatkin's line of retreat on which depends so much for the Rus-

sians is seriously threatened, if indeed it has not been cut. Kuropatkin's forces are doomed to complete disaster. The best he can hope for is to save a mere remnant of his army after devoting whole divisions to slaughter. Gen. Kawamura's mysterious army is momentarily expected to complete the net around the defeated host by appearing in the extreme East, thus blocking the sole remaining route to the Pass. This is the greatest battle in the world's history and promises to end in the world's greatest military disaster. Fully 200,000 Russians are already surrounded and the Russians' central army is also annihilated.

Russia Looks for More Trouble
Bulletin Special.

St. Petersburg, March 10th.—Trouble is apparently brewing between Russia and England. Thousands of troops and munitions of war and lately 56 military trains mostly carrying artillery poured into Turkistan and demonstrated against Afghanistan and a counter move against British India is expected.

No Settlement Yet.
Bulletin Special.

Ottawa, March 9th.—There is no development in the cabinet difficulty as yet but hopes of a settlement are expressed. The Opposition held a caucus to-day but no agreement was reached as to the stand of the party on the educational clause of the Autonomy Bill. The second reading of the bills are expected to take place next week as settlement cannot be longer delayed. If there is no settlement by that time there will be no settlement at all.

Crisis Not Acute
Bulletin Special.

New York, March 10th.—Lord Strathcona arrived from England today. He said "I've not come back to settle the Cabinet crisis over the school question. I settled that eight years ago. I don't think the crisis is acute."

The Quebec Muddle.

Quebec, (March 10th)—Senators Choquette and Legris appeared before

the committee with charges against Premier Parent. The committee may report to the House to-night.

Public Hall for Winnipeg.

Bulletin Special.

Winnipeg, March 10th.—The city intends tearing down the big meat market and rebuilding it as a police station and mammoth hall.

CURLING.

The ice is in good shape for curling once more and an effort will be made to get the final games in the different competitions played off. The games posted are as follows:

This afternoon at 3 p.m.—Emery vs. Fraser; E. H. & M. Cope; Morris vs. Rae; Hardisty, Tonight—

Campbell vs. Dewar, Dowsett vs. Moore. Saturday at 3 p.m.—Dowsett vs. Emery. Galbraith vs. Winner Dewar vs. Campbell.

Saturday, 8 p.m.—Dewar vs. Winner Morris vs. Rae. Emery vs. Winner Dowsett vs. Moore.

PARLIAMENT

The Unexpected Happens.

When the autonomy bills were presented on Tuesday of last week, they were received with general acceptance by the House and throughout the country. It was acknowledged that the Premier had excelled himself in his introductory speech and that in breadth and character of the conditions contained, he had proven his claim to the name of statesman. Soon, however, murmurings began to be heard in regard to the special educational provisions and with the return of the Minister of the Interior on Thursday last, rumors of Cabinet disagreements began to be circulated. It was not thought that these would result in anything more than a compromise that would be generally advantageous. On Monday, however, rumors as to the views of the Minister of the Interior in opposition to the educational provisions of the bill began to be frequent and definite. On Tuesday they increased and this afternoon at half-past three o'clock at the first opportunity in the order of business, the Premier rose and read the formal resignation of the Minister of the Interior, which had been handed to him on Monday; with his written acceptance of the same, dated on Tuesday. The Premier made no comment beyond stating that he accepted Mr. Sifton's resignation with the greatest regret and that the only difference of opinion between himself and the ex-Minister were in regard to the educational clauses of the bill.

Mr. Sifton Explains.

Mr. Sifton read a short explanation of his course. It had been intended to take up the subject of autonomy as soon as possible after the general elections. The absence of the Premier in search of health delayed the proposed conference, and afterwards, his own absence for the same reason. On his return to the city on Thursday last he took the first opportunity to read the remarks of the Premier in introducing the bill. With those remarks in regard to the educational question he did not agree. On Friday he secured a copy of the educational clauses of the bill, and having considered them carefully, decided that he was unable to support their provisions; he therefore had sent his resignation to the Premier on Monday and requested that it take effect forthwith. This had been assented to by the Premier in his letter of acceptance which had been read to the House. He expressed his adherence to the principles of Liberalism and his regret at being compelled to sever his connection with the Government, and especially with the Premier, with whom his relations had always been most cordial.

Foster Enters In.

Mr. Foster, acting as leader of the Opposition, in the absence of Mr. Borden, said that the resignation of the Minister was not a surprise to members of the Opposition. Knowing his record on the school question in Manitoba, he did not look for him to take any other course. He alluded particularly to the fact that the Premier had prepared and brought forward an important measure without consulting either the Ministers of Interior or Finance, following his own example in the case of the Transcontinental railway bill, which had been introduced without consulting the Minister of Railways. Mr. Foster suggested that in that case the Premier's action had been dictated by a desire to rid himself of the late Minister of Railways, and that a similar motive towards the Ministers of Interior and Finance had dictated his justice in this case. Mr. Foster intimated that there were rumors of the intended resignation of the Minister of Finance and he was anxious to have a statement as to whether this was likely to occur or not.

McCarthy Against the Bill.

Mr. Leighton McCarthy, member for North Simcoe, who sits on the Liberal side, declared his inability to support the educational clauses of the proposed bill.

Cuthrie for it.

Mr. Gathrie, who represents the city of Guelph in the Liberal interest, declared his support of the educational provisions of the bill as it stood.

Sprout and Taylor Heard From.

Dr. Sprout, Grand Master of the Orange Order and member for East Grey, welcomed Messrs. Sifton and

McCarthy to the ranks of those who were opposed to separate schools.

George Taylor, Conservative member for Leeds and whip of the Conservative party, expressed his gratification at the action taken by Mr. Sifton.

Haggart Looks for Compromise.

Hon. Mr. Haggart, Conservative member for Kanark, asked the Prime Minister if there was not a possibility of some amendment being made that would meet the views of the Minister of the Interior.

McLean gives a Spread Eagle Oration.

W. F. McLean, member for South York and editor of the Toronto World, made an impassioned address declaring against separate schools in any form.

Hughes Talks War.

Colonel Hughes, of Victoria county, Ontario, talked of war, if separate schools were insisted on in the bill.

The Premier Replies to Insubordination.

Mr. Foster threw another charge or two of sarcasm at the Prime Minister, with special consideration of the position of the Minister of Finance, without, however, producing any reply further than that the Premier stated that the numerous questions asked would be answered in their order at the proper time. At present the business in hand had been disposed of, and he only wished to say that the insinuation made by Mr. Foster that he had conspired against his late colleague, the member for Brandon, in his absence, was absolutely unfounded. It was with the greatest regret that he was compelled to lose his valuable services. Their relations had always been cordial and his hope was that would remain so. This closed the incident for the day.

The Position has Changed.

The resignation of the Minister of Interior has put the question of the autonomy bills in an entirely new light before the public. Hitherto the financial issue was the important one, but his action has elevated the educational issue to first importance. There seems to be no difference of opinion in regard to the other provisions of the bill. On the educational features he did not say, and it is not known, to what extent his objections go; or whether an amendment can be made which would meet his views. His record as a member of the government which abolished separate schools in Manitoba, placed him in a specially difficult position in considering a measure which in any degree accepted the principles of separate schools. The same is true in an equal degree regarding Mr. Greenway, member for Ligar, who was the Premier of Manitoba when the separate schools were abolished. The abolition of separate schools in Manitoba was not because of objection to the abstract principle, but to the abuse which the separate schools system of the province had become. But it is difficult to make this distinction in the public mind.

While Mr. Sifton's personal position has no doubt had a great deal to do with his action, the results must necessarily go far beyond. The broad fact that the Minister of Interior has given up the power and emoluments of office for the sake of a principle makes a rallying point for all who may be inclined to dispute the action of the Government. Yesterday Mr. Sifton was the most objectionable person in the Liberal party from the Conservative point of view; today he is acclaimed on the floor of the House, and no doubt will be throughout Canada by the same party as a martyr to principle; which is the highest and best certificate of character that can be given to a public man.

Res It to the West.

Mr. Sifton's resignation precipitates a battle royal in Canadian politics, the end of which no one can foretell. In every corner of the Dominion a battle will be fought with a view to the leaves and fishes of office, as well as the principles involved. There is no possibility of the affair turning out something like the story of "Ginx's Baby," which had a great run many years ago. Ginx's family having increased beyond his abilities to support, when the baby of the story arrived he proposed to meet the difficulty by drowning it off London bridge. He was prevented by some society for the care of children. The baby was taken care of, and as it grew up became a subject of dispute and litigation in regard to its religious training between different charitable bodies. The law-suit grew; the expenses became enormous; the baby, the cause of the trouble, was forgotten; and when it had grown to manhood, arrived destitute of neglect and misfortune. The man drowned himself at the place where he had intended to dispose of him as a baby.

There is a fair chance that in the scrap now developing in regard to religious instruction in the North West the interests of the West will receive scant consideration and possibly the conclusion may be as disastrous as the result of the law-suit in "Ginx's Baby."

Ross Brothers, Ltd.

Following is one of the many testimonials that speak of the work done by these Filters:

The Duquesne Chemical Laboratory.

Analitical Chemists and Chemical Engineers, Standard Bldg.,

531 Wood St. Pittsburg, Pa., April 12, 1897.

GENTLEMEN:—Following is the report on the samples of water taken from the regular city supply, and also after it had passed through the Tripoli filter. Two filters were tested in this manner one having just been started and the other having been in use four months. The chemical analysis, made to show animal and vegetable pollution, includes the amount of ammonia, albuminoid ammonia and oxygen required to completely destroy such pollution. The bacteriological analysis is a count of the total number of living microbes in ten ordinary drops of water. This test was repeated in duplicate in case of the filtered samples. The results obtained on analysis as follows:

Water from hydrant. From old filter. From new filter.

Ammonia	0.03	0.02	0.02
Albuminoid Ammonia	0.20	0.09	0.08
Oxygen Consumed	1.64	0.56	0.64

The figures represent parts of the impurities in one million parts of water. On cultivation, the hydrant water showed 800 bacteria in ten drops. That from the old filter 0, 2 and 4 in three tests, and from the new filter 3, 3 and 7. The above shows that the number of living microbes present has been reduced 99.6 per cent.; the ammonia is reduced 39 per cent.; the albuminoid ammonia 57 per cent., and the oxygen consumed 64 per cent. by passing through the filter, making the originally very bad water equal in cleanliness and purity to the best spring water. These results cannot be surpassed by any system of filtration with which we are familiar.

Respectfully submitted,

W. E. GARRIGUES CHIEF CHEMIST AND MANAGER

99.6 per cent. of living microbes eliminated by use of the filter.

The price is from \$3.00 up, the \$3.00 one fits on to any house tap and can be removed in two seconds. They are stone filters and the stones can be cleaned as easily as any glass tumbler or delf cup. The Gravity filters are only \$4.50 and readily filter water from a pail into any other vessel placed to receive the filtered water. They are small and can be easily packed in a very small space to carry from place to place.

The above is correct cut of the Gravity Filter, showing it in operation.

These Filters can only be had in Alberta from ROSS BROS. who are Sole Agents. The Trade supplied.

ROSS BROTHERS, Limited.

MR. SIFTON'S RETIREMENT.

Ottawa Citizen—

A question relating to immigration was asked by the Prime Minister while Mr. Sifton sat silent in his seat, prepared members and spectators for what was to follow, and there was absolute silence in all parts of the chamber when the Prime Minister arose to make the announcement of Mr. Sifton's resignation, Sir Wilfrid said:

SIR WILFRID'S STATEMENT.

"I have the honor to inform the House that my colleague (Hon. Mr. Sifton) has resigned his position in the Government as Minister of the Interior. Mr. Sifton finds himself unable to agree with the terms of the bill which has been lately introduced for the admission into the Dominion of the provinces of Alberta and Saskatchewan, his disagreement being confined altogether to the education clause. After a conference with him the following correspondence has been exchanged between him and myself:

Ottawa, Feb. 27th, 1905.

Dear Sir Wilfrid: After giving my best consideration to the matters which we discussed last evening, I have arrived at the conclusion that it is impossible for me to continue in office under present circumstances, and that is better for all concerned that I should act at once. I therefore tender my resignation as a member of the Government. I trust that the unhappy necessity which has arisen will not in the least impair the friendship with which you have been kind enough to honor me.

(Sgd.) CLIFFORD SIFTON."

To this I answered yesterday, as follows:

Ottawa, Feb. 28th, 1905.

My Dear Sifton: I received yesterday your letter of the same date, whereby you tender me your resignation as a member of the Government. There is no alternative to me but to accept it, and with much regret it will be my duty to place it in the hands of His Excellency. After our conversation of the other day I had left you with the impression that the difference between us were more of words than of substance, and until I received your letter I had cherished the hope that it would have been possible for this to find a comparatively easy solution. Whilst I feel more regret than I can express at this termination of our official relations, let me assure you that should our old friendship ever impaired the fault will not be mine.

(Sgd.) WILFRID LAURIER."

The resignation of Sir Wilfrid concluded, "has been placed in the hands of His Excellency who has been pleased to accept it."

MR. SIFTON'S STATEMENT.

The ex-Minister of Interior then arose and made his explanation to the House. Mr. Sifton said:

The statement made by the Right Honorable the Prime Minister necessitates a very short explanation to the House on my part. When it was determined that after the last session of Parliament the nation should be introduced creating new provinces out of a portion of the North West Territories, I felt called upon in view of the history of the education question in Canada, to give a very serious consideration to the position which I should take with regard to the Legislative power to be conferred upon the upon the province in regard to the subject of education. It was necessary that conferences should take place with members of Parliament representing the North West Territories and with the representatives of the Territorial Government upon the subject of education and other subjects were unavoidably postponed until after the opening of the new year by reason of the absence of the Prime Minister who, after the general election was compelled to take a short rest and was thereafter absent from the country. Shortly before the time fixed for holding these conferences I was compelled by my own state of health to leave Ottawa, and was therefore unable to be present at the discussion which took place. Before leaving I discussed with the Prime Minister most of the subject that necessarily required to be dealt with in the bill which was to be introduced, and so far as I was able to do so at that time I communicated my views to him upon the various subjects. I may say that when I went away I did not anticipate that it would be necessary to introduce a bill for creating the new provinces before the next session of the House. Onwards I returned to the Capital on Thursday afternoon. I immediately took occasion to read carefully the speech which the Right Honorable, the Prime Minister had delivered in introducing the bill. I regretted that in the Right Honorable's address I found some principle enunciated with which I am unable to agree. On Friday, the next day after I returned, at the earliest possible moment I procured a copy of the educational clause of the bill which my leader had introduced. That clause is as follows:

"In the provinces of sections 23 of the British North America Act 1867, shall apply to the new provinces. At the date upon which this Act comes into force, the territory comprised therein were already a province, the expression "the union" in the said section being taken to mean the said date."

Subject to the provisions of the said section 23, and in particular of

CURING THE FILLER.

THE Pharaoh filler I select in Manicaragua—Province of Santa Clara, Cuba, is generally harvested in February.

The plants are cut down at daybreak—allowed to remain until eleven o'clock in the morning—until they are properly wilted—then taken to curing houses for drying.

After they are thoroughly dried they are allowed to become moist through atmospheric humidity and then made into "hands." Four of these hands constitute a carat, eighty carats make a bale.

After allowing it to age for three full years, in order to develop its superb fragrance and aroma, I make it up into "Pharaoh."

That's why there is a taste and odor of genuine tobacco in my Pharaoh Cigar.

WILL HOLD FAIR.

UNDER GUARANTEE FROM CITY

Proposal of Exhibition Association
Adopted by the City Council—City
Debentures Discussed.

The city council met in special session in the Chamber last evening; present, Mayor MacKenzie, and Aldermen May, Clark, Boyle, Bellamy, Picard, Griesbach, McLeod and Fraser.

EXHIBITION ASSOCIATION'S PROPOSAL.

Messrs. J. B. Morris and G. Gallagher addressed the council as delegates from the Industrial Exhibition Association asking that the city guarantee the association against loss to the amount of \$5,000, the Association undertaking to hold an exhibition on the usual dates equal to or better than that of last year.

The Association were willing to devote their grounds and time to the purpose and would allow a committee from the council to approve of the proposed expenditures. Any surplus should be used for future exhibition purposes. Mr. Morris thought the fair this year should be made a financial success, but the association did not want to undertake the risk alone. Aside from the permanent improvements undertaken, the last fair had netted some three or four hundred dollars. The copy of a resolution of the directors of the association, embodying the above proposition was presented.

Ald. Clark thought the suggestion a good one. Ald. Boyle, though, opposed to the city going into the exhibition business, thought it better to do so than have no exhibition.

The request was granted, and Ald. McLeod, Mr. B. and Mr. Clark agreed to the committee to approve of expenditures and charges.

CITY DEBENTURES.

Ex-Mayor Short addressed the council, saying they \$110,000 worth of debentures had been sold. R. Wilson Smith on a prospectus issued by the city, stating that the debentures were a special charge on the waterworks system. On representations from his solicitors, the council had passed by-laws undertaking to procure the necessary legislation to make the debentures what they purported to be. The purchaser wanted an agreement to that effect before the money was paid over.

The secretary said the original deal had been made in October, when the prospective purchaser intimated that the money was ready to be turned over, but owing to delays partly caused by himself, the council had decided that he should be paid interest for the time the money was lying idle. If the bonds were sold now, the purchaser would pay accrued interest at 1 1/2 per cent from December 28.

Mr. Short claimed the debt was due to Hepburn's not being ready for handing over when Mr. Smith was ready to pay the money.

Ald. McLeod thought Mr. Smith wanted some \$700 for the use of money the city has never seen.

Ald. Boyle thought Mr. Smith's latest agreement was merely an option.

Mr. Short argued that the town underook to sell something it did not have. He was surprised to find on examination that the debentures were not a charge on the waterworks. Mr. Smith asked that the city deliver the goods as per agreement.

Ald. Griesbach thought that in the absence of the solicitor, the council could not discuss the matter intelligently. Ald. Fraser wanted to know why the solicitor was not here. Ald. Clark thought he should be here.

Ald. Boyle thought that such agreement made with Mr. Smith was only succeeded by another proposal.

In answer to a question Mr. Short said this particular trouble had not arisen during his term of office but difficulties had usually arisen during such sales. Former debentures had not been a charge on the waterworks. This was the first sale of waterworks debentures and was given to get a better rate otherwise the rate, instead of being 4 1/4 per cent would be 5 per cent or 5 1/2 per cent. It was only a case of giving a better debenture and getting a better rate.

Ald. Boyle thought that in case the city went into the hands of a receiver, all the utilities would be among the assets.

Ald. Boyle thought the requested action would enpair the credit of the city.

The request was laid on the table until the return of the city solicitor and the meeting adjourned.

I desire to announce to the public that I am about to open a shop in Edmonton for the making and repairing of shoes. I guarantee all material and workmanship and to give satisfaction. I have had many years experience in Europe and also in this country. The prices will be moderate and to every customer who has paid the sum of \$3.00 before the first of May, I will give one lottery ticket on the following articles: One gentleman's silver watch, worth \$8.00, and one lady's silver watch worth \$8.00. The drawing will be on May 15th, 1905. This is certainly a good chance for customers. Call and satisfy yourself. Raymond Denis. First door west of Blodoeau's Jasper avenue, se. dy. 1w.

APPLICATION TO PARLIAMENT

Notice is hereby given that application will be made to the Parliament of Canada at its present Session for an Act to extend the time for the commencement and completion of the construction of The Canada Central Railway Company.

HENRY C. HAMILTON,

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNACCUSTOMED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25. to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

THE OTTAWAS WON.**SECOND STANLEY CUP GAME.**

Heavy Checking and Fast Play on
Soft Ice in Ottawa last night

Ottawa, March 9.—The rink has been flooded at 6 p.m. and some water covers the surface, but it is expected by the time the game starts that it will be sufficiently frozen to make a good sheet, but not quite so fast as for the first match. There have been some big bets this morning. In the Russell House as soon as it was known that McGee and Gilmore would play, a thousand dollars was put up, one man making a six hundred bet even that the Ottawas would win tonight's game. Two more well known sportsmen of Ottawa put up two hundred each the same way. There are lots of smaller bets being made in the rink now. The Ottawas are confident of winning, but the Thistles are just as confident as the champions that they will win tonight's contest. The rink is crowded now and as many outsiders that cannot obtain admission. Seats sold for \$8 this afternoon and they were eagerly sought after.

\$25.—Refer to McGe Grant blows his whistle and throws the coin.

8:51.—Game starts; McGee gets it from McGimie. Griffis lifts it to centre. Smith comes down but Griffis gets it and hands to Bellefeuille. Griffis comes up and almost scores. Bellefeuille relieves a red hot one. Phillips almost scores, it's off side and they face close to Ottawa goal. Griffis and Phillips try a combination, but it's wide. Smith tries a shot, but it's wide.

RAT PORTAGE SCORES.

Face near Rat Portage goal. Thistles get it but lose to Moore. Bellefeuille comes up but loses to McGee. Phillips loses; it's off side. The Ottawas try their famous forward rush, but it is spoiled by Bellefeuille. The pace is like lightning. Westwick loses to Griffis, he comes up and shoots. Gilmore saves, comes down, but loses to Brown. Phillips comes up and shoots a terrific one at Ottawa's goal near the right place, but not near enough. McGee gets it, but loses to Brown. Phillips tries a shot. It's off side. It's faced near centre. Ottawa man goes down, but big Griffis spoils a combination. Smith outplays Bellefeuille and tries a hot one, but Griffis is there and comes up like a cyclone. Griffis tries a shot but Bellefeuille gets it and Rat Portage scores first goal in twenty minutes.

OTTAWA SCORES.

They start again. Smith comes down but loses to Bellefeuille. It's off side and Gilmore gets the face, but loses to Griffis who outplays the Ottawa man. He tries a shot, but it is wide. Now it is in centre where a Rat Portage man got it, but lost it. Griffis gets it and Pulford and Moore spoil him. It is in centre. Phillips gets it and Ottawa scores second game in two minutes.

EACH SCORE ONE.

Lights at each end went out and game stopped for few minutes. Rat Portage scores third game in three minutes.

Ottawa wins next score in two minutes. This makes the score two all.

OTTAWA AGAIN.

They are off again. There is a struggle near the Thistle goal, but Smith gets it and shoots. McGee got it and almost scored. Brown and Giroux are playing a great game and save their team. It comes to centre where Phillips outplays Pulford and tries a shot. Smith held McGimie with his stick and goes off. Rat Portage have a man more than Ottawa. Gilmore scores fifth game for Ottawa in two minutes.

Half-time up—8:45; score, Ottawa 3, Rat Portage 2.

OTTAWA WINS.

Off again 8:58.—The pack is very fast, but the Ottawas are playing the Thistles unmercifully. Bellefeuille and Griffis are the stars tonight. Beaudre plays it with McGee and off again. Bellefeuille gets it but loses to McGee who tries a shot, it is close. Now Hooper comes down, but loses. He comes to centre and is faced again. Griffis gets it but loses to Gilmore. Griffis comes, strong and nearly scores. It goes to side, where McGe shoots a hot one. Smith and McGee try a rush, but fail. Now Smith comes up strong, but it is no good. Off side. Moore gets it but loses. Smith scores sixth game for Ottawa in twenty minutes.

No further scores were made and the game closed 4 to 2 for Ottawa.

CREDIT FOR THE POLICE.

In His Lordship's addresses to the jury on Wednesday His Lordship referred to the reputation for law and order which is enjoyed by the North West Territories and gave no small amount of credit to the excellent work of the Royal North West Mounted Police. The Crown's Prosecutor also referred to the patience and persistence of Sergeant Andrew working out the details of the case.

The R. N. W. M. P. has for years been acknowledged one of the most efficient forces in the world, and the conclusion of the King case very substantially endorses this enviable reputation. The clues were few and meagre, yet when followed the produced a set of circumstances which convinced the jury of the guilt of the prisoner. The story, as revealed in the evidence of the prisoner is briefly, that two strangers came to Edmonton, out-fitted here, and went north after a week or two stay in the city. They shot and killed a lesser Slave Lake, one of the men shot his partner, burned the body to conceal the crime, threw the personal belongings of the dead man in a lake and then continued his way to the settlement.

But the fate which demands that he who takes human life shall give his own in forfeit pursued him. The suspicious of a tribe of Indians were aroused. They reported their suspicions to the police station at this isolated post and thus began the tiresome inquiry which ended yesterday in the sentence pronounced upon the prisoner.

The credit for working out the case belongs very largely to Sergeant Andrew and Constable Low. The former has been for many years stationed at this far northern post and returns there in a few days to take up duty again.

It speaks volumes for the system and the character of the men in the force that isolation and privation do not undermine their vigilance or industry.

MR. SIFTON'S RETIREMENT.
Continued from page three

The principles heretofore sanctioned under the North West Territories Act, it is enacted that the Legislature of the said province shall have all necessary laws in respect of education and that it shall therin always be provided (a) that a majority of the ratepayers of any district or any portion of the said province, or of any loss portion or subdivision thereof, by whatever name it is known may establish such schools therein as they think fit, and make the necessary assessments and collection of rates thereof and (b) that the minority of the ratepayers therein, whether Protestant or Roman Catholic, may establish separate schools therein, and make the necessary assessment and collection of rates thereof, and that in such case the ratepayers establishing such Protestant or Roman Catholic separate schools shall be liable only to assessment of such rates renewable at the discretion of the Minister of the Interior.

3. In the appropriation of public moneys by the Legislature in aid of education, and in the distribution of any moneys paid to the Government of the said province arising from the School Fund established by the Dominion Lands Act, there shall be no discrimination between the public schools and the separate schools, and such moneys shall be applied to the support of public and separate schools in equitable shares or proportion.

"That in the clause which is contained in the bill which was introduced by the Government, Between Friday when I received a copy of the clause and Monday morning I gave the subject my best consideration and I had the privilege in the meantime of having an interview with the Prime Minister on the subject. As the result of such consideration I determined that I could not endorse or support the principles of the educational clause. Under these circumstances, Mr. Speaker, my duty became perfect. On the Monday morning I wrote to the Prime Minister tendering my resignation as a member of the Cabinet. Subsequently I expressed the desire that my resignation should be acted upon at once and that with the Prime Minister has now assented.

In conclusion Mr. Speaker, not in tending and not considering it proper at this time to enter into a discussion of the merits of the matter which has caused the difference between myself and my leader, I have only to add my regret that circumstances have compelled the severance of my official relations with the leader and with my colleagues with whom my relations have always been of the most harmonious and pleasant character and with whom upon their question I am in entire accord. The circumstances, however in my judgment, make my duty perfectly clear and it does not seem possible for me properly to consider anything except the principles which are involved."

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of each ten years and over and joint stock companies holding free miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$1.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices one at each end of the line of the vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles of fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended on the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of areas not exceeding 160 acres.

The parties for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessor's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two dollars a mile per annum, collected on the output after it exceeds \$10,000. Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessor's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by his position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length, and on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the cut-off, of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10, Royalty at the rate of four and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free mineral shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining Yukon Territory—Locations suitable for hydraulic mining, having a frontage from one to five miles, and a depth of one or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; it is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent. of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and a loss of \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum—All unappropriated Dominion lands in Manitoba and within the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and subsequently establish sound discovery in an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

I INSIST on having perfect leaves in my Pharaohs. When each leaf is stripped there is no fibre or coarse matter left in—simply a clear leaf that smokes evenly and slowly, so that the rose-like aroma can be thoroughly enjoyed.

The tips of each leaf point to the burning end of the cigar—ensuring more perfect combustion and delicacy of aroma.

J. BRUCE PAYNE, Limited

Grosby, P.Q.

The filer of my Pharaoh is a selected leaf from the Manitoba district of Custer, what myself buy in Cuba—the border the celebrated tobacco of the Connecticut valley and the wrapper a genuine Sumatra I import direct from Holland.—J. R. P.

Now genuine unbranded PHA-RO

TO ADVERTISERS

The SEMI-WEEKLY BULLETIN covers the business field tributary to Edmonton as no other publication does. Don't spend your money on fake advertising. The BULLETIN will take your story into more homes for less money than any other means or agency.

EDMONTON ALTA. CANADA
POPULATION, 7,500
CITY GOVERNMENT:-

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:- Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:-President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:-C. W. Sutter. Educational Institutions:-Public and separate schools, high school, Alberta College.

CHURCHES:-Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:-Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

-Train on time.
-Probs: Fair and cold; local snow falls Saturday.

-A prairie fire was running north of the Sturgeon on Wednesday.

-The Sturgeon River is reported nearly free of ice.

-Chas. King, the condemned man, was taken to Fort Saskatchewan yesterday.

-A report comes from Egg Lake that a splendid hot spring has been discovered in that vicinity.

-Miss Mahel Sales, sister of Wm. Sales of Edmonton, died at her home in Ottawa, March 9.

-On the return of Mr. C. W. Cross, which is expected this week, the delegate to Ottawa, will prepare a report for submission to the city council.

-A representative of P. Burns & Co. has been in the city several days. It is reported in connection with a proposal of the company to start a large pork packing establishment here.

-Mr. J. E. Hull, Western Manager of the Bell Telephone system came up from Wetaskiwin on Wednesday. The company are making alterations in their system at Wetaskiwin, to enable them to carry a larger number of services.

-Clareholm Review: Some hundred and fifty Clareholmites turned out to fight the prairie fire north of the town on Wednesday the 22nd ult. Dr. Turger's house had a narrow escape and had the wind turned the least bit to the North West would certainly have made things interesting for Clareholm.

-Regina Standard:-A farmer sells a horse at four and a half cents a ton when it is shipped to Winnipeg where it is worked up into "breakfast bacon" and it is shipped back and sold to its former owner at 20 cents a pound. The railway makes a double profit, the packing house a single profit, and the farmer no profit at all.

-Kootenay Mail: On Monday two men arrived at Laggan, one of whom had his feet frozen 140 miles north of Laggan, where they had been trapping. Their cabin had caught fire and their ammunition and supplies were all destroyed. The nearest camp was forty miles and they made for that to get help, when one had his feet frozen and had to be brought out for medical aid. It must have been an awful trip covering that 140 miles over the deep snow and in bitterly cold weather, the injured man was sent to Blaiff for treatment.

-Calgary Albertan: The Edmonton fair has been a crock of the west, and that it should be discontinued will be a serious misfortune, not only for Edmonton, but for the entire west. Though in some respects the Edmonton fair is a rival of the Calgary fair, and does take some people north who might come south, yet it is important to the Calgary exhibition that the Edmonton fair should keep going, for the two exhibitions were just beginning to learn the value of union and to understand how much could be done by co-operation in the way of attractions, judges, and other features.

-Saskatoon Phoenix: Preparations for bridge construction are in evidence in the C.P.R. yards. The large building erected last week is completed and already some of the elements have been stored therein. Some nine cars of cement have been side-tracked and more are on the way. Several cars of squared timbers are on the siding and are being piled in readiness for the work. Some of the timbers are from sixty to eighty feet long and the finest that British Columbia can produce. These will be used for the construction of the coffer dam. Little, if any, work will be done until the ice moves out. Some predict that the ice will not rot sufficiently in this warm, dry weather to allow it to pass out without disturbing the bridge. At present indications it may not be many days before the ice begins to break up. The pile driver arrived on Thursday and will be kept on this side of the river ready for work. The C.P.R. is rushing freight along two trains arriving daily.

AGRICULTURAL INSTITUTE
MEETINGS AND LIVE STOCK
JUDGING SCHOOLS

Will be held under the auspices of the Territorial Department of Agriculture and the local agricultural society at the following places:
Strathcona Mar. 18, 8 p.m.
Fort Saskatchewan Mar. 20 & 21.
Edmonton Mar. 22 & 23.
Wetaskiwin Mar. 24 & 25.
Ponoka Mar. 27, 2 & 8 p.m.
Lacombe Mar. 28 & 29.

The two day meetings will be stock judging schools at which animals will be used at the morning and afternoon sessions to demonstrate desirable and undesirable conformation. Score cards will be used to test the value of the different portions of the animal.

The speakers will be:

J. Stanfield, V.S., Walkerton, Ont.
G. M. MacLure, Ottawa, Ont.

Who will speak on live stock topics using living animals at the stock judging schools, and, if opportunity offers, are prepared to use them at the afternoon sessions of any institute meeting.

All persons interested are respectfully urged to attend. Young men should not miss this opportunity.

dy 54-65 chg

-Red Deer Advocate: At a joint committee meeting of Local Improvement District No. 19-T-4 and the Red Deer District of Trade a resolution was adopted that the opinion of this committee is desirable to hold a convention of "Local Improvement Districts" and "Boards of Trade" for the purpose of advancing the interests of road construction; That delegates be invited from all Local Improvement Districts and Boards of Trade between and including Olds and Ponoka; That the convention be held in Red Deer on Tuesday and Wednesday, March 21 and 22.

-Moose Mountain Star: R. B. Bennett, a Calgary man, has announced his intention of going throughout the length and breadth of the Territories to stamp against the Autonomy Bills, on the ground that they contain a separate school clause. It would be as well for the public to note that this man Bennett is from Calgary, and that he has political ambitions which fact explains a great deal. It would be as well for Mr. Bennett to remember that he is bound to come into contact with a great deal of common horse sense on his tour that may prove a little disappointing to him.

-Regina Standard:-A farmer sells a horse at four and a half cents a ton when it is shipped to Winnipeg where it is worked up into "breakfast bacon" and it is shipped back and sold to its former owner at 20 cents a pound. The railway makes a double profit, the packing house a single profit, and the farmer no profit at all.

Wall
Paper

For Season 1905.

No previous collection has contained such attractive features as that we now ask you to call and examine; it is the cream of the celebrated product of the

Watson Foster Co., Ltd.,
Montreal.

We have bright, pretty florals and stripes for chambers; magnificent hall, dining-room, store, and office decorations; and a wide choice of very beautiful

Parlor Hangings

in soft shades of creams, greens, blues, etc., with silver and gilt treatment.

Altogether, our range outclasses any previous offerings in value and effect.

Our cheap papers are good and our good papers are cheap.

So if you have any walls not recently papered, let us show you how easy it will be to produce a beautiful result at comparatively small expense.

We have procured the services of Mr. A. Desilets, an expert at paper hanging, who will guarantee any work entrusted to him.

Leave your orders with us, and we will do the rest.

Don't forget that we are headquarters for all kinds of

House Furnishings.
